ABOUT US

We are a young and dynamic elevator service provider, emerging as the best elevator manufacturing company in Kerala since our inception. Established with deep insights into the local needs and expectations, we are here to bring a new level of efficiency and safety to vertical transportation.

Invested in the growth of our communities, we offer you pocket-friendly elevator service of exceptional quality. We craft the best elevators for you that symbolizes efficiency, reliability and safety.

What sets us apart is our unwavering commitment to quality and customer satisfaction. Whether it is to install a new elevator or modernize your existing one, we design and manufacture elevators that are efficient and aesthetically pleasing. Our comprehensive maintenance and repair services keep your elevator running smoothly and efficiently.

With safety as our top priority, we ensure that our elevators comply with the highest industry standards. From customized designs to premium specifications, we offer you great value, faster delivery, and top-notch products without sacrificing quality, safety, or reliability.

Don't just climb, but ascend with grace!

Making every level of your residence accessible!

Home Lifts

Recapture the freedom of your entire home with a personal elevator by Signmec Elevators. We redefine home accessibility for you with our premium range of home lifts. Crafted for seamless integration into any home, our lifts are a blend of functionality and beauty, enhancing accessibility and elevating your lifestyle.

Imagine any member of your family accessing your multi-story home without anyone's half-baked assistance regardless of restriction in mobility. We offer tailored solutions to meet your specific needs offering a smooth and quiet operation. From compact designs for limited spaces to luxurious cabin finishes, our home lifts are the symbol of style, functionality, and safety. Moreover, we prioritize smooth, quiet operation and hassle-free installation, minimizing disruption and ensuring your comfort throughout the process.

Italian Home Lifts

Crafted with unmatched Italian design and innovative engineering, each Signmec home lift is meticulously manufactured to your exact specifications. Through meticulous attention to detail and a commitment to cutting-edge technology, we create lifts that are as beautiful as they are functional.

We utilize the latest technologies to ensure smooth operation, quiet rides, and exceptional energy efficiency. This ensures a level of precision and finish that surpasses expectations, delivering a lasting legacy of excellence in your home.

MRL Home Lifts

Machine Room-Less (MRL) traction elevators are an innovative addition to ease your mobility in your home. Unlike traditional elevators requiring dedicated machinery rooms, MRL technology ingeniously houses all necessary components within the hoistway itself. This offers the same smooth, reliable ride with the added benefits of flexibility.

MRL Home Lifts by Signmec are:

- ERA+ Home Lifts
- DELUXA Home Lifts
- DELUXA+ Home Lifts

Safety

- Designed and manufactured as per European safety norms (EN81-1)
- Full height safety curtain at the entrance
- Automatic return to the lowest floor during power failure
- Emergency stop & alarm switch
- Manual rescue operation device in Power Pack Unit

Key Benefits

- Compact in size
- Customized cabin sizes & interior finishes
- No machine room
- Minimum pit & headroom
- Single phase operation (230V)
- Zero power consumption for descend movement
- Available in free Standing Shaft Structure
- Available in Manual or Automatic door option
- Smooth & Noiseless operation

Passenger Lifts

At Signmec Elevators, we specialize in crafting passenger lifts for any space, overcoming the challenges of limited headroom and shallow pits. The sleek aesthetics of these elevators blend seamlessly with your building's interior, whilst the robust engineering guarantees reliable performance and lasting quality.

These passenger elevators cater to everyone, offering a comfortable and dignified experience for wheelchair users and individuals with limited mobility. Whether your building is new or established, our innovative designs ensure a smooth and hassle-free installation process.

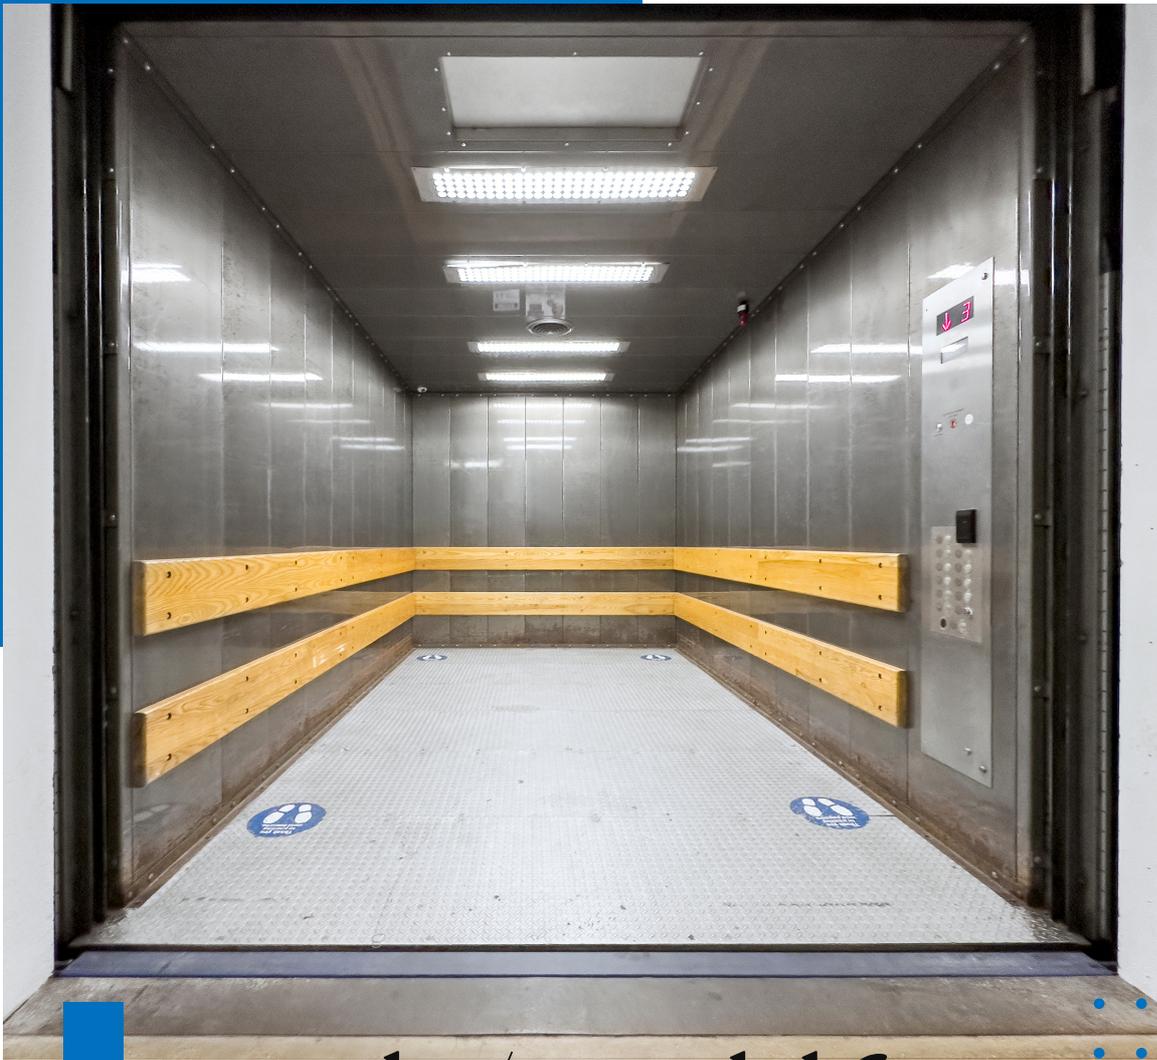

Our Models

1. PRIMA - MR/MRL
2. PRIMA+ - MR/MRL
3. ERA -MR/MRL
4. ERA+ -MR/MRL
5. DELUXA - MR/MRL
6. DELUXA+ - MR/MRL

Key Features

- Capacity: 4 to 24 p
- Speed: 0.6 to 5.0 mps
- Max. Travel: 180 m
- A wide range of capacities from low-rise to high-rise.
- High-speed operation
- Smooth and quiet operation.
- Automatic and manual door options.
- Designed and manufactured as per European Safety norms (EN81-1)

Freight/Goods lifts

Built to handle even the most demanding tasks, our heavy-duty goods lifts are the workhorses of any industrial setting. We use only high-quality materials and advanced engineering to create equipment that's reliable, durable, and built to last. Whether you're moving palletized supplies in a warehouse or heavy machinery in a factory, we have customizable options to ensure a perfect fit for your specific needs.

From simplified loading and unloading to intuitive controls, we design each lift to maximize productivity and minimize disruption. With a focus on all-round excellence, we exceed expectations by providing reliable performance, unmatched safety, and exceptional customer service.

Key Benefits

- Capacity: 500 to 5000kg
- Speed: 0.4 to 1.5 mps
- High capacity to handle even the heaviest loads.
- A sturdy platform that can withstand years of use.
- Simplified operation ensures ease of use.
- Both automatic rolling doors and manual swing doors.
- Advanced safety features, including emergency stop and alarm buttons.
- Carrying capacity from 500kg to 5000kg

Hospital Elevators

Our hospital lifts are designed to meet the demanding needs of healthcare settings, offering reliability, spaciousness, and advanced safety features. They are built to accommodate various medical equipment and patients, including those on stretchers, ensuring smooth and quiet operation to prioritize patient comfort.

The lifts are equipped with emergency communication systems and high-quality materials, emphasizing safety and hygiene. Additionally, the ease of cleaning and disinfecting the lift cabins makes them ideal for maintaining a sterile environment in healthcare facilities.

Key Benefits

- Capacity: 13 to 24p
- Speed: 1.0 to 1.75 mps
- Large cabins to accommodate stretchers and other medical equipment.
- Automatic doors for easy access.
- Smooth and quiet operation to minimize patient discomfort.
- The finishes are easy to clean and disinfect.
- Guaranteed uninterrupted operation during power outages.
- Advanced safety features, including emergency stop and alarm buttons.

Capsule Lifts

Capsule elevators are the epitome of sophistication and are often considered the focal point of prestigious buildings and architectural wonders. These elevators also provide seamless and comfortable transitions between floors. With aesthetically pleasing designs, attractive interiors, and expansive glass viewing panels, capsule elevators are meticulously planned to exude elegance and style.

At Signmec Elevators, we offer a wide range of capsule elevators in various sizes and designs, ensuring that you find the perfect fit for your needs. Whether it's a large or small capsule lift, we provide modern designs and an unparalleled experience, all while ensuring economical and reliable operation with minimal maintenance requirements. Our capsule elevators offer passengers an out-of-this-world experience with extremely silent operation and breathtaking views.

Main features of our hospital lifts:

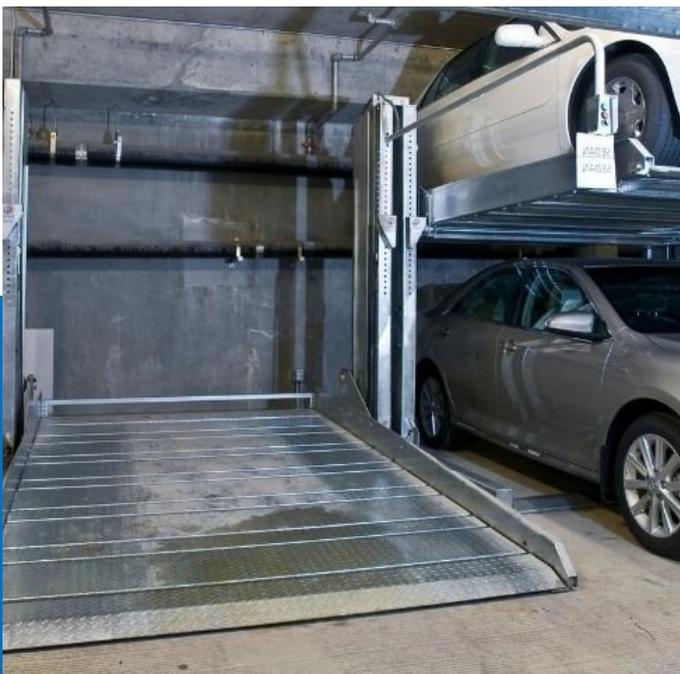

- Capacity: 13 to 24p
- Speed: 1.0 to 1.75 mps
- Large cabins to accommodate stretchers and other medical equipment.
- Automatic doors for easy access.
- Smooth and quiet operation to minimize patient discomfort.
- The finishes are easy to clean and disinfect.
- Guaranteed uninterrupted operation during power outages.
- Advanced safety features, including emergency stop and alarm buttons.

Car Lifts

Our car lifts are specially designed to transport cars vertically, maximizing parking capacity in residential and commercial buildings. Our car lifts are built with sturdy construction and advanced safety features, ensuring reliable and space-saving solutions for the secure movement of cars.

Key features

- Capacity: 2500 to 5000kg
- Speed: 0.5 to 1 mps
- Max. Travel: 60 m
- Convenient options like user-friendly controls
- Advanced safety features with emergency alarm and stop buttons etc.
- Available for single-car and double-car options
- Easy to operate controls.
- Maximized car parking capacity

Dumbwaiters

Our dumbwaiters are the perfect solution for streamlining the transportation of goods between different levels within your building. Their compact and efficient designs make them ideal for the swift and convenient movement of items such as food, documents, and various supplies. Crafted with high-quality materials and advanced technology, our dumbwaiters guarantee reliable operation and enduring performance. Additionally, with customizable options available for size, load capacity, and control systems, our dumbwaiters can be tailored to precisely match your specific requirements.

- Capacity: 50kg to 300kg
- Speed: .15 to 5 mps
- Easy-to-clean surfaces and materials prioritize sanitation and food safety.
- Minimal maintenance and user-friendly controls for long-lasting use

Models

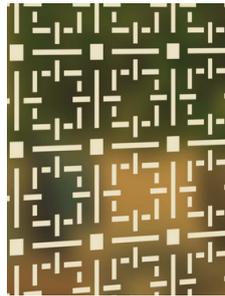

- NANO 1 – 50 KG
- NANO 2 - 100KG
- PENTA – 200KG
- ROBO – 250 -300KG

SS Designer Sheets

At Signmec Elevators, we offer premium SS designer sheets, crafted from high-grade stainless steel to provide durability, elegance, and easy maintenance. Our exquisite designs offer a touch of sophistication and style. Choose from a variety of finishes to ensure seamless integration with any architectural style.

WHY CHOOSE US

High Efficiency:

Advanced systems used in elevators minimize energy consumption, reducing operational costs and environmental impact.

Unmatched Safety

Our elevators have undergone rigorous testing in every stage of manufacturing to ensure a smooth, secure ride for every user.

Unwavering Reliability

Built with superior quality materials and backed by comprehensive maintenance plans for trouble-free operation.

Smoother Ride

Using smart and innovative technology, our elevators provide you with optimized accessibility and noiseless operations.

Spatially Optimized

We offer compact designs without sacrificing functionality.

Customization for Every Vision

Choose from a wide range of materials, finishes, and colors to match your building's interior design, from sleek and modern to warm and inviting.

SERVICES

- Designing

- Installation
- Maintenance
- Repair
- Modernization
- Customization

At Signmec Elevators, we understand that elevators are the lifeblood of your buildings, connecting people with spaces and opportunities. From consultation, installation and to maintenance, we approach every service with meticulous attention to ensure your elevator functions at its optimal level flawlessly. We provide you tailored solution according to your needs.

Designing

Our dedicated team works closely with you to understand your unique requirements to craft state-of-the-art elevators, that combine safety, form and functionality. From sleek designs to elegant options, we offer a wide range of design choices to suit your architectural vision and electrical ecosystem.

Manufacturing

Our team of skilled engineers and technicians leverage the latest technologies and advanced machinery to ensure every elevator meets the highest standards of precision and durability. From laser cutting and forming steel to rigorous testing and quality control, each step is carefully monitored to guarantee exceptional performance and long-lasting reliability.

Installation

Our highly skilled technicians possess years of experience in installing elevators in various types of buildings including hospitals, and other industrial spaces. We strictly adhere to the highest safety norms and follow the best industry practices using the latest technology to ensure a seamless operation.

Maintenance

Our comprehensive maintenance plan includes timely monitoring and diagnosis to address even minute concerns before they impact your everyday operations. Our trained technicians conduct thorough inspections to identify potential problems before they escalate.

Repair

Our team of highly trained and experienced technicians will be available 24/7 to respond to your emergency repair needs. We have the expertise to handle all types of repairs, from minor electrical issues to major mechanical overhauls.

Customisation

We offer a vast array of materials, finishes, and colours to choose from, allowing you to create an elevator interior that seamlessly blends with your building's aesthetic. We also offer a range of functional features to tailor your elevator experience to your specific needs such as touch-screen control panels.

Modernization

We specialize in elevator modernization services that transform your outdated lifts into sleek and modern safe houses of vertical mobility. Our elevator modernization service is a cost-efficient solution to enhance the performance, efficiency, and safety of your existing elevator system.
